

JIGAR DESHMUKH

Bangalore India | +91-9503863868 | deshmkhjigar123@gmail.com

SUMMARY

Innovative Data Scientist skilled in developing data-driven solutions and designing predictive models. Transformed complex data into actionable insights to enhance business decisions. Expertise in analytical techniques, machine learning algorithms, and programming languages including Python and R. Contributions have led to improved efficiency and profitability through strategic data analysis.

SKILLS

- Machine Learning
- Scalable ML solutions
- Model lifecycle management
- Data Analytics
- Data analysis
- Data preprocessing
- Python
- Python development
- SQL
- Streamlit development
- API integration
- Code optimization

EXPERIENCE

11/2022 - 02/2026

Senior Data Scientist / Team Leader The Ascent Group

- Spearheaded the CryptoAPI project by building automated, high-throughput data-extraction pipelines across major CeFi exchanges (Binance, Bybit, Coinbase), implementing rate-limit-optimized APIs, cron jobs, and a robust FIFO/LIFO computation engine.
- Led the end-to-end development of scalable data and ML solutions using Python, SQL, and Streamlit, while handling team operations as a TL by guiding, mentoring, and coordinating a high-performing team.
- Ensured seamless data flow through MongoDB and integrated financial outputs into PFS PAXUS for accurate fund accounting.
- Developed strategic ideas for app development and automated workflows, fostering innovation and maintaining high-quality operational standards.

09/2022 - 11/2022

Python Developer (RPA) Sequelstring Solutions And Consultancy Pvt Ltd

- Developed scalable applications using Python frameworks for client solutions.
- Implemented RESTful APIs to enhance application connectivity and functionality.
- Collaborated with cross-functional teams to define project requirements and specifications.
- Automated web tasks and supported data analysis at Sequelstring Solutions, enhancing process efficiency and providing actionable insights.

01/2020 - 01/2021

Production Executive Fogla Corp

- Coordinated daily manpower, cargo operations, maintenance activities, and production work to meet operational requirements.
- Operated machinery to assemble products, ensuring adherence to safety and efficiency standards.
- Inspected products for quality assurance before packaging.

EDUCATION

01/2019

Bachelor of Engineering Shivajirao S Jondhale College of Engineering - Dombivli, Maharashtra

WEBSITES, PORTFOLIOS, PROFILES

- <https://www.linkedin.com/in/jigardeshmukh-67ba8a189>

CERTIFICATIONS

- Microsoft Technology Associate (MTA)
- Machine Learning Certification
- Deep Learning Certification
- Python for Data Science Certification
